

Alice Perego

Email: alice.perego@oca.eu
Address: 96 Bd de l'Observatoire, 06300 Nice, France
ORCID: 0009-0001-0670-2738 
linkedin: [alice-p-71408439b](https://www.linkedin.com/in/alice-p-71408439b)

MAIN SCIENTIFIC INTERESTS

LISA mission - ultra-compact double white dwarfs - multi-messenger astrophysics - photometric and spectroscopic surveys - LISA data analysis - stellar binary evolution - Milky Way - gravitational wave backgrounds - massive black hole binaries - extreme mass-ratio inspirals

EDUCATION

Observatoire de la Côte d'Azur - Artemis Nice, France
Ph.D. in Astrophysics November 2024 – present
– Thesis title: Enabling multi-messenger detections and science of Galactic binaries with LISA
– Supervisors: Nelson Christensen, Astrid Lamberts
– Expected Graduation: Autumn 2027

University of Milano Bicocca Milan, Italy
Master's Degree in Astrophysics and Space Physics October 2022 – October 2024
– Final grade : 110/110 cum laude
– Thesis title: Assessing the performance of future space-based detectors: astrophysical foregrounds and individual sources
– Supervisors: Alberto Sesana, Matteo Bonetti, Sylvain Marsat

Laboratoire des 2 infinis (L2IT) Toulouse, France
Research internship March 2024 – July 2024
– Project title: Performing parameter estimation of massive black holes binaries for future space-based gravitational wave detectors, in the perspective of the project Voyage2050.
– Advisor: Sylvain Marsat

University of Milano Bicocca Milan, Italy
Bachelor's Degree in Physics October 2019 – September 2022
– Final grade : 110/110 cum laude
– Thesis title: Numerical simulations of oscillating neutron stars
– Supervisor: Bruno Giacomazzo

CONFERENCES, WORKSHOP & RESEARCH VISITS

- European Astronomical Society Annual Meeting Lausanne, Switzerland – July 2026
Contributed talk
- LISA Symposium College Park, USA – June 2026
Contributed talk
- LISA France Paris, France – May 2026

Contributed talk

- LISA Astrophysics Working Group meeting
Contributed talk Geneva, Switzerland – December 2024
- GW Space 2050 workshop
Oral presentation Potsdam, Germany – November 2025
- “Enabling Future Gravitational Wave Astrophysics in the Milli-Hertz Regime” workshop
Oral presentation Garching, Germany – July 2025
- LISA Sprint workshop Huntsville, USA – April 2025
- LISA Distributed Data Processing Center (DDPC) workshop Milan, Italy – June 2025
- Research visit at Carnegie Mellon University
Host: Katelyn Breivik Pittsburgh, USA – April 2025
- Annual meeting of the French Society of Astronomy & Astrophysics
Contributed talk – published proceeding: [Preparing for LISA with CFH telescope: Synergies between gravitational waves and electromagnetic observations](#) Toulouse, France – July 2025
- Rencontres de Moriond - Gravitation
Contributed talk – published proceeding: [Assessing the performance of future space-based detectors: astrophysical foregrounds and individual sources](#) La Thuile, Italy – April 2025
- LISA Astrophysics Working Group meeting
Contributed talk Garching, Germany – November 2024
- GWOSC Gravitational Wave Open Data workshop
Mentor at an in-person study hub Toulouse, France – April 2024

SEASONAL SCHOOLS & SPECIALISED TRAINING

- LISA School for early-career scientists Les Houches, France – October 2025
- MOOC “Reproducible Research II: Practices and tools for managing computations and data” Online – September 2026
- MaNiTou Summer School on Gravitational Waves Toulouse, France – July 2024
- Masterclass on Big Data within Science and Industry Milan, Italy – September 2023

MEMBERSHIP

- LISA Consortium - core member
- LISA DDPC - L3C coordination unit
- LISA Astrophysics working group
- GW Space 2050 working group

OBSERVATIONAL PROPOSALS

- ‘Apapane: Dynamic Sky Across All Scales
co-PI with Damya Souami, Viraja Khatu
Canada-France-Hawaii Telescope/Megacam – [300-700] nights

submitted in May 2026

SOFTWARE KILLS

- **Programming:** Python, C++
- **Softwares and codes:** Python packages, COSMIC (population synthesis code), VizieR and Aladin (astronomical dataset and tools)
- **Analysis techniques:** Frequentist and Bayesian statistical inference

LANGUAGES

- **Italian:** Native
- **English:** Fluent
 - Certification: Bbetween English C1 Open Badge awarded by the University of Milano Bicocca
- **French:** Intermediate
 - Certification: French proficiency test B2 awarded by the GoFluent online course
